

PAULINE MORAA

TECHNICAL VIRTUAL ASSISTANT

Nairobi, Kenya | 0714660729 | pmoraa431@gmail.com | www.linkedin.com/in/pauline-moraa | <https://github.com/PollyM-tech>

PROFILE

Technical Virtual Assistant with a software development and AI-training background, combining hands-on technical capability with traditional VA/EA support skills. Experienced in building and maintaining websites, managing web-based tools, and supporting digital operations for small businesses and founders. The background includes AI model evaluation (Outlier, Handshake, and Aligner), full-stack web development, and social media/digital marketing execution — reducing the need for clients to hire separate technical and administrative support.

TECHNICAL SKILLS

Web Development: React, Typescript, Next.js, HTML/CSS/JavaScript, Convex, Git/GitHub, responsive design

Tools & Platforms: Notion, Google Workspace, Microsoft 365, Trello/Asana, Slack, Zapier, Zoho CRM tools (basic), Canva, GitHub, Vercel

AI & Data: AI model evaluation, data annotation and labeling, prompt review, RAG/chatbot concepts (Outlier, Handshake, Aligner)

Troubleshooting: Website/CMS issue resolution, API/authentication debugging, browser and account-level troubleshooting

Digital Marketing: SEO fundamentals, social media management and scheduling, content calendars, campaign support, analytics reporting

ADMINISTRATIVE & VA SKILLS

Executive Support: Inbox and calendar management, meeting scheduling, travel, and document coordination

Coordination: Project and task tracking, cross-platform communication, vendor and client liaison

Communication: Professional written communication, client-facing correspondence, reporting

EXPERIENCE

Freelance Technical Virtual Assistant & Web Developer

2020 – Present

Self-Employed · Remote / Kenya

- Design and build responsive websites and web applications for small businesses (React, Typescript, Next.js), including full landing pages, custom branding, and CMS setup.
- Provide technical VA support to clients — managing website updates, resolving CMS and hosting issues, and maintaining integrations and automations.
- Manage inboxes, calendars, and scheduling for client engagements alongside technical deliverables.
- Deliver digital marketing support, including social media content calendars, scheduling, and SEO-aligned copy.

AI Trainer / Data Evaluation Specialist

2020 – Present

Outlier, Handshake, Aligner · Remote

- Evaluate and annotate AI model outputs across coding, mathematics, and general reasoning tasks.
- Review prompt-response pairs for accuracy, safety, and quality against detailed rubrics and guidelines.
- Apply strong attention to detail and technical judgment to high-volume evaluation workloads under a deadline.

Programme & Events Coordinator

2016 – 2023

Still A Mum Kenya, Mamba Village Centre, Aremant Group Ltd · Kenya

- Coordinated NGO programmes and MICE/events logistics, managing schedules, vendors, and stakeholder communication.
- Built organizational and multitasking skills directly transferable to high-volume administrative and executive support work.

CERTIFICATIONS & EDUCATION

- Generative AI for Software Developers — Moringa School (2026)
- Software Engineering Bootcamp — Moringa School (2025)
- Certifications in Generative AI, Project Management, and Leadership — various institutions
- BSc, Events and Convention Management — Technical University of Kenya
